

Welcome to K-TAP Unit 5: Other Transportation Support Services. Learning Objective: in this unit, we will learn how to understand other transportation support services.

Through the Kentucky WORKS Program, work-eligible individuals may be eligible for additional supportive service payments for items or services needed to participate in KWP activities, including employment. The annual limit for other transportation related support service payments is \$400 per year.

Support services payments cannot be authorized to reimburse the client for expenses that have already been paid.

Support service payments can be used for several things, including the cost of a photo identification, driver's license fees, the exam cost for a driver's certificate, and the exam cost to obtain a professional license.

Learning Stop

Number One: True or False? The annual limit for other transportation-related support service payments is \$400 per year.

The correct answer is true. The annual limit for other transportation-related support service payments is \$400 per year.

Number Two: Professional driver's training and licensing costs may be paid through the Kentucky WORKS program's other support services.

The correct answer is true. Professional driver's training and licensing costs may be paid through the Kentucky WORKS program's other support services.

This concludes K-TAP Unit 5: Other Transportation Support Services.
