

Transportation to COVID-19 Testing

The Department for Aging and Independent Living and the Kentucky Transportation Cabinet have formed a new partnership to ensure individuals with disabilities can get transportation to and from a COVID-19 testing site.

Scheduling Rides

To schedule a ride, call the Aging and Disabilities Resource Center Hotline at **1-877-925-0037**.

Services are available based on the locations of Resource Centers that receive CARES Act funding.

Callers will be directed to the Regional Transportation Broker for scheduling the ride. Medicaid eligibility will be verified first. Callers who are not Medicaid eligible will still be able to receive a ride through this new initiative.

Scheduling a Test

To schedule a COVID-19 test, you can locate a test site in your area by visiting: www.kycovid19.ky.gov
